

What's in the Box?

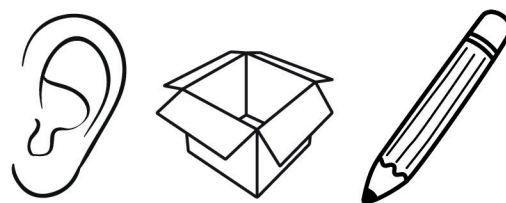

Phase 1 skill: Voice Sounds

Aim: Linking environmental and animal sounds

Why this matters:
Builds vocabulary
and auditory
discrimination

What you'll need:

Small animal toys or
animal pictures

How to do it:

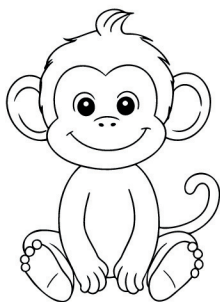

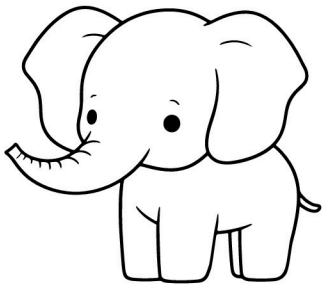

1. Place the toys/animal cards in the box, then let your child shake the box and pick something without looking.
2. Ask, 'what sound does that animal make?'
3. Use the other sheet to draw or tick the sounds

Say this to help:

1. Let's make the sound quietly, then loudly?
2. Shall we make that noise again?
3. Can we stomp like an elephant?
