

# Sound Snap!

## Phase 1 skill: Environmental Sounds

**Aim: Match identical sounds using only your ears!**

### Why this matters:

**It helps children sharpen listening accuracy and sound discrimination**

### What you'll need:

**snack/yoghurt pots or plastic easter egg containers, or jars, or paper coffee cups with lids.  
Fillers like rice, pasta, lego**

### How to do it:

- 1. Fill two containers with each filler and seal the container.**
- 2. Mix them up, shake one and ask your child to find its match by sound.**
- 3. Once matched, open and check.**
- 4. Use the other sheet to tick or draw the fillers/sounds matched**

### Say this to help:

- 1. Shake one at a time**
- 2. Close your eyes while shaking it**
- 3. Listen carefully**
- 4. Was that sound loud or quiet?**

# Sound Snap!

Which sounds did you match?
